

On Time Delivery Report Users Guide

1. Sales Order On Time Delivery Report

Inventory > Inventory Transactions > Inventory Transaction Reports > Detailed Transactions > On Time Delivery Report

Parameter Input

This report depicts the transaction that any given order item has undergone. It indicates, for example, the quantity of ordered parts that have been shipped to a given customer and when each shipment was made. It also displays how early, or late the shipment was compared to the due date entered on the order.
