**Why are my Project Cost not including values from sub projects.**

-  
There is a issue found with this functionality:  
To resolve this you can do the following:  
  
Please download and run the shell files from the following link, using the System Management > Revisions > Install Upgrade program.  
Please run the 28298i first.

***ftp://cust1:!qaz2wsx@ftp.eshbel.com/cust1/R6797***

***or file can be found on : T:\fixfile cost rollup***

Then run the System Management > Generators > Forms > Form Preparation > Form Preparation program  
and System Management > Generators > Procedures > Prepare Reports & Procedures program.  
This should add a new program that can run as a direct activation from the **Revenue and Profit** sub form of the  
Project form to calculate revenue and project considering sub projects. The shell file are for Priority V18.
